

Issue: A hard drive crashes every 15 seconds.

Solution:

proven backup™ is the secure, offsite data backup service you can count on. Whether you have 5GB or multi-terra-bytes, our process is the same. Your data will be copied, compressed, 128-bit encrypted and uploaded to one of our remote servers through a Secure Sockets Layer (SSL). The backed up data is 100% restorable to its original formats by simply clicking a few buttons.

proven backup™ is the secure, offsite data backup service you can count on:

- Cost effective
- Completely automatic backup
- Daily online and email reports
- Access your data wherever and whenever you want using the Internet
- User friendly interface
- Centralized web management console
- Secure, encrypted data storage process
- Multi-regulation compliant
- Supports Windows and Macintosh operating systems
- Flexible historical versioning
- State of the art, fail safe facility
- 24-7/365 support

Causes of data-loss:

- Hardware Malfunction
- Human Error
- Software Corruption
- Computer Viruses
- Natural Disasters

HFS&SOCI Impact on US Small Business of Natural & Man-Made Disasters (2007)
